

NILS LOFGREN "BONUS TRACKS"

We're excited to share these **39 bonus tracks** of rare recordings and special demos of mine through the years. They originally appeared on the 10 disc **Face The Music** box set, which my dear wife Amy produced with me. Thanks Amy! It has been out of print for a while so we're sharing them with you digitally now. Featuring unreleased Grin tracks and favorites of mine and I'm so grateful to the many talented musicians that grace this collection.

Grin's version of *Keith Don't Go* features an inspired performance by **Neil Young** on piano and vocals. It rocks! Also, one of the greatest voices ever, **Lou Gramm** duets on *Some Must Dream* and *I'll Arise*. Truly an honor.

Hope you all enjoy these tracks and thank you all for listening all these decades. You, the audience, are the main inspiration for everything you hear, here! Bless you all! Peace and Believe - *Nils Lofgren*
